DETAILED ACTION

Response to Amendment

1. Receipt of applicant's amendment filed August 31, 2007 is acknowledged.

Allowable Subject Matter

2. **Claims 1, 2, and 4-20** are allowed.

3. The following is an examiner's statement of reasons for allowance:

Applicant's amendment and arguments submitted August 31, 2007 have been carefully considered and found persuasive as to the distinctions of applicant's claimed invention over the previously applied prior art of U.S. Patent No. 2,169,904 to Schweller and U.S. Patent No. 1,013,323 to Richardson.

Therefore, in regard to claim 1, in light of the record taken as a whole, the prior art does not disclose, teach, or suggest the oven rack have the combination of structural features recited.

Claims 2 and 4-17 are allowable as being properly dependent, either directly or indirectly, upon claim 1.

In regard to claim 18, in light of the record taken as a whole, the prior art does not disclose, teach, or suggest the cooking appliance having an oven rack associated with the appliance where the oven rack has the combination of structural features recited.

Claims 19 and 20 are allowable as being properly dependent upon claim 18.

Art Unit: 3749

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
